roundGUN PR36

Ion blower guns for cleaning with round jet nozzle

For manual cleaning tasks, we combine the advantages of Eltex nozzle technology with the variability of a hand-held air gun. This means that a wide variety of shapes can be cleaned efficiently. The roundGUN PR36 blower gun with round jet nozzle is available with compressed air connection at the top or bottom, with or without air filter and optionally with balancer.

Advantages at a glance

- > 6 bar permitted
- > Nozzles can be replaced individually

Suitable for connecting
one or more Eltex
discharge components:

POWER IONIZER

BASE IONIZER ES60

COMPACT IONIZER ES24

roundGUN PR36

Technical Information

Element	PR36
	Typ K
Bar element	plastic PA6.6, 30 % GF
Emission tip	tungsten
Operating ambient temperature	0...+80 °C with compressed air 0...+60 °C without compressed air
Ambient humidity	max. 70 % r. F., not dewing
Weight	approx. 240 g
Operating voltage	max. 5 kV AC
Short-circuit current/tip	0,05 mA
Contact protection	contact protected according to EN 61140
Compressed air	
Air connection	hose NW10
Air consumption	0 – 6 bar
Air consumption at 6.0 bar	23 Nm ³ /h

Dimensions

PR36/NK with filter, bottom air connection
